

International Institute for Developing Engineering Academics

Offering professional development workshops given by world-known experts to engineering professors (and related disciplines), academic leaders and graduate students.

An excellent way to provide capacity building for faculty attending conferences to learn about the transformation of engineering education world-wide.

Workshop sessions customized to your needs!

Seoul, S Korea 2010

"I wish my dean had attended this workshop."

"I would recommend this workshop to everybody in the academic field."

International Institute for Developing Engineering Academics

Educating the Ideal Engineering Professor

Offices in Washington (ASEE-IFEES) and Brussels (SEFI)

IIDEA

The International Institute for Developing Engineering Academics (IIDEA) is a leadership training institute focused on establishing a global network of engineering faculty development programs to disseminate learning about the transformation of engineering education worldwide. This is carried by two kinds of activities:

1. A menu of workshops available to engineering and related disciplines professors, administrators, graduate students and other interested individuals, and,
2. Through professional growth for the community of faculty developers in engineering education and associated disciplines.

The engineering professor is the **catalyzer** of students' learning.

Workshop themes include:

- Curriculum Innovation
- Teaching/Learning Strategies
- Accreditation
- Using Technology for Learning
- Academic Strategic Planning
- Integrating/Nurturing R&D
- Enhancing the Laboratory Experience
- Industry-University Collaboration
- Service Learning
- And many others...

Five easy steps for organizing an IIDEA Session at your venue:

1. **Browse** list of workshop offerings in our website www.iideainstitute.org
2. **Select** those you wish to consider
3. **Contact** IIDEA offices in Washington or Brussels to co-organize
4. **Hold** session at your institution or conference
5. **Evaluate** workshops outcomes

"Results were immediate! After 25 years of teaching, I had never seen so much enthusiasm in my class..."

Mysore, India 2008

IIDEA is hosted by the International Federation of Engineering Education Societies (IFEES) and the European Society for Engineering Education (SEFI), located respectively in Washington, DC (USA) and Brussels (Belgium). The Institute has two Co-Directors:

- **Lueny Morell**, HP/IFEES, USA
- **Anette Kolmos**, SEFI, Europe

and an Advisory Board composed of the following world experts:

- **Eduardo Silva**, ACOFI, S. America
- **Michael Auer**, IGIP, Europe
- **Jenny Case**, AEE, Africa
- **YU Shouwen**, CEEA, China
- **R. Natarajan**, ISTE, India
- **Elizabeth Godfrey**, AAEE, Australia
- **Sarah Rajala**, ASEE, N. America
