

SEFI is the largest network of higher engineering education institutions (HEIs) and educators in Europe.

It is an international non-profit organisation created in 1973 to contribute to the development and improvement of HEE in Europe, to reinforce the position of the engineering professionals in society, to promote information about HEE and improve communication between teachers, researchers and students, to reinforce the university-business cooperation and to encourage the European dimension in higher engineering education.

Through its membership composed of HEIs, academic staff, students, related associations and companies, SEFI connects over 1 million students and 158000 academic staff members in 48 countries.

To reach its goals, SEFI implements diverse activities such as Annual Conferences, Ad hoc seminars/workshops/councils organised by its thematic working groups and committees, SEFI organises European Engineering Deans Conventions, publishes a series of Scientific publications (European Journal of Engineering Education) and Position Papers, is involved in European projects, cooperates with other major European and international associations and international bodies (European Commission, UNESCO, Council of Europe, OECD).

SEFI also participated in the creation of numerous international organisations such as [ENAAE](#), [IFEES](#), [EuroPace](#), [IACEE](#), [IIDEA](#), or [EEDC](#).

Requests for Corporate Cooperation can be addressed to:

SEFI Secretary General Mrs. Françoise Côme

# SEFI Corporate Cooperation

Join SEFI and become part of the largest network of higher engineering education stakeholders in Europe.

# SEFI Corporate Cooperation

The European Society for Engineering Education is a network of more than 350 members:

Higher engineering institutions, professional societies, student associations, students, academic staff, engineers and corporates within Europe and worldwide.

SEFI offers a unique platform for networking and SEFI develops concrete actions to improve and promote European higher engineering education.

SEFI offers a unique opportunity for corporates to:

- Be aware of European policies in engineering education and anticipate how they can affect their workforce
- Influence those policies with the voice of their company, their industry or their profession.
- Be alerted of opportunities for participation in European projects that relate to engineering education
- Meet engineering students and education stakeholders from both Europe and worldwide
- Participate in recruitment activities
- Benefit from student projects and internships
- Discuss newest topics within global collaboration and innovation
- Enhance their company's visibility within the European and global engineering education community

**SEFI offers 3 types of corporate cooperation, each one offering specific benefits:**

## Corporate Working Group Supporter

**Annual fee € 1225**

*Considered as the real backbone of SEFI, our working groups and committees bring together Society's members to discuss and analyse specific topics of engineering education.*

**Besides offering an influence on developing higher engineering education in general, the corporate working groups supporter includes**

- **Free access** for one participant at the events of the supported **working group(s)**
- **Access to SEFI information resources** (monthly newsletter, bi-monthly journal)
- The **support** and the participation in one of the SEFI working group
- **Link on SEFI Working group website**

## Corporate Member

**Annual fee € 2450**

**Besides contacts, visibility and networking activities with engineering students and engineering institutions and an influence on developing higher engineering education, the SEFI Corporate Membership offers**

- **Free access** for one participant and **one stand** at one selected SEFI event
- **Access to SEFI information** monthly newsletter, bi-monthly journal
- **Link on SEFI website**
- **Branding the company as innovative** field of engineering education and lifelong learning
- **Invitation to participate in general SEFI activities**
  - Annual conferences
  - Ad hoc seminars and workshops
  - Working groups and task forces
  - Publications
  - Consultancy
  - International cooperation
  - International projects

## Corporate Partner

**Annual fee € 4900**

**The SEFI Corporate Partnership visionary and extended membership providing all the benefits of corporate members as well as additional ones**

- **Free access** for one participant and **one stand** at one selected SEFI event
- Company logo on **SEFI main home page special publications**
