

INVITATION

EAEIE 2023

14 - 16 JUNE 2023 | EINDHOVEN, THE NETHERLANDS

Dear Sir/Madam,

What are your thoughts on the future of education in electrical and information engineering? What are the current innovations in this field? How can professionals, researchers and lecturers work together in order to solve meaningful challenges?

Join the 32nd Annual Conference of the European Association for Education in Electrical and Information Engineering (EAEIE) from 14 – 16 June 2023 in Eindhoven, the Netherlands!

EAEIE 2023

The EAEIE brings together professionals, researchers and lecturers working in the field of Electrical and Information Engineering (EIE). Mechatronical departments in universities also deal with challenges in this field. We therefore value the contribution these institutes can have on the topic. The theme of the conference, *innovative learning for innovation*, will be discussed during inspiring keynotes, paper presentations and workshops.

Programme

We warmly welcome you to three unique and inspiring venues in Eindhoven, the Netherlands. The opening of the conference will take place at Fontys University of Applied Science. You are also welcome here the day before the conference to check in, have a welcome drink and meet up with the other participants. The second conference day will take place in the Evoluon, an iconic conference centre. The TU/e, Eindhoven University of Technology, will host the third and final conference day. Following the conference, you can experience Eindhoven during an optional guided tour of the city.

Call for papers

Authors are welcome to present their research at the conference. In this case the abstract needs to be submitted for review. The final papers will be submitted to the internationally recognised IEEE databanks. By publishing with IEEE, you will get the global prestige that high-quality research deserves. [Click here](#) to read more about submission and key dates.

Registration

Sign up for the conference using the ConfTool. Here you can register for the conference and social activities and submit your research paper. The conference pass includes attendance of technical sessions, workshops and invited keynote speakers, presentation of one paper, coffee breaks, lunches, and a welcome reception. Experience everything Eindhoven has to offer by signing up for the additional conference dinner and the post-conference guided tour of the city.

More information

For more information about the EAEIE conference, please visit www.fontys.nl/eaeie. In case of further questions, do not hesitate to contact us via EAEIE2023@fontys.nl.

We are looking forward to welcoming you in Eindhoven in June 2023!

Your sincerely,

The organisation of EAEIE 2023
